

Public and Occupational Health in Sustainable Agriculture

A one day hybrid conference

August 23. 2022 Odense, Denmark

2 ZERO HUNGER

3 GOOD HEALTH AND WELL-BEING

8 DECENT WORK AND ECONOMIC GROWTH

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

17 PARTNERSHIPS FOR THE GOALS

Homepage: <https://dasam.dk/agriohs2022/>

Scientific Committee Rural Health :
Agriculture, Pesticides, Organic Dusts

OUH
Odense
University Hospital

Objective

The scientific program will cover major topics related to current research and solution implementation in occupational health and safety (OHS) in agriculture.

The program will encompass presentations on health and safety issues, the work environment, and sustainable alternatives for reducing negative health effects and environmental pollution.

Who should attend?

This event is aimed at junior and senior researchers; occupational health practitioners, agronomists, occupational/industrial hygienists, SHEQ managers and specialists; social security managers and representatives from governmental departments, regulatory authorities, employers, employees, unions, industry, academic institutions and professional societies.

A hybrid conference

This event will provide opportunities for both in person or virtual conference attendance. We hope this will ensure a broad representation from agricultural health and safety specialists across the globe. Keynotes and roundtable discussions will be available online each morning,

while the oral presentations and poster sessions will be available only for those physically attending the conference.

Registration

For registration and payment see homepage

<https://dasam.dk/agriohs2022/>

You can also register by mailing:

Erik Jørs
erik.joers@rsyd.dk

or

Anette Møller Pedersen
anette.m.pedersen@rsyd.dk
